

SOFTWARE REQUIREMENTS DOCUMENT (SRD)

ShishuSneh Healthcare Android Application

MindMatrix Industry Readiness Programme · Android Internship

Document Control

Field	Details
Document Title	Software Requirements Document (SRD) – ShishuSneh Healthcare
Document ID	SRD-SSH-001
Version	v1.0
Status	APPROVED
Prepared By	Mehek Tanga
Project Type	Android Healthcare Application
Date Prepared	16 May 2026

1. Introduction and Purpose

1.1 Purpose

This Software Requirements Document defines the functional and non-functional requirements of the **ShishuSneh Healthcare Android Application**.

The application is developed to help parents monitor child health records, vaccination schedules, growth tracking, and medical reminders.

1.2 Scope

In Scope

- User registration and login

- Child profile management
- Vaccination tracker
- Medicine reminders
- Growth monitoring
- Firestore cloud database integration
- Notification reminders

Out of Scope

- Online doctor consultation
- Payment gateway
- Video calling
- AI diagnosis system

1.3 Intended Audience

Audience	Purpose
Developers	Development reference
Mentor	Project evaluation
Testers	Test case preparation
Internship Evaluators	Final assessment

2. Stakeholders and User Personas

2.1 Stakeholders

Stakeholder	Role
Mentor	Project approval
Developer	App implementation

Stakeholder	Role
Parents	End users
Healthcare Workers	Reference usage

2.2 User Persona

Persona 1: Parent User

Field	Value
Name	Priya Sharma
Age	29
Occupation	Working Mother
Goal	Track child vaccinations and medicines
Pain Points	Forgetting vaccination dates

3. System Architecture

Application follows **MVVM Architecture**.

Layers

- View Layer → Jetpack Compose UI
- ViewModel Layer → Business logic
- Repository Layer → Data handling
- Data Layer → Firebase Firestore

Tech Stack

- Kotlin
- Jetpack Compose
- Firebase Authentication
- Firebase Firestore

- Material Design 3

4. Functional Requirements

FR-01 User Registration

The system shall allow users to register using:

- Name
- Email
- Password

Validation:

- Valid email required
 - Password minimum 6 characters
-

FR-02 User Login

The system shall allow registered users to log in securely using Firebase Authentication.

FR-03 Add Child Profile

User can create child profile with:

- Child name
 - Date of birth
 - Gender
 - Blood group
 - Parent contact
-

FR-04 Vaccination Tracking

System shall:

- Store vaccination records
 - Show upcoming vaccines
 - Mark completed vaccinations
-

FR-05 Medicine Reminder

System shall allow users to:

- Add medicine name
 - Set reminder time
 - Enable notifications
-

FR-06 Growth Monitoring

System shall track:

- Height
 - Weight
 - Age milestones
-

FR-07 Firestore Data Storage

All records shall be stored in Firebase Firestore database.

FR-08 Notifications

System shall send reminder notifications for:

- Vaccinations
 - Medicines
-

5. Non-Functional Requirements

ID	Requirement
----	-------------

NFR-01	App shall load within 3 seconds
--------	---------------------------------

NFR-02	Firebase sync within 2 seconds
--------	--------------------------------

NFR-03	App compatible with Android 9+
--------	--------------------------------

NFR-04	Secure user authentication
--------	----------------------------

NFR-05	No app crash during normal use
--------	--------------------------------

6. Use Cases

UC-01 Register User

Actor: Parent User

Flow

1. Open app
2. Click Register
3. Enter details
4. Submit form
5. Account created

UC-02 Add Child Profile

Actor: Parent

Flow

1. Login
2. Click Add Child
3. Fill details
4. Save

UC-03 Set Medicine Reminder

Actor: Parent

Flow

1. Open reminder page
2. Add medicine
3. Set time
4. Save reminder

UC-04 Track Vaccination

Actor: Parent

Flow

1. Open vaccination tracker
2. View pending vaccines
3. Mark completed

7. Database Schema

Users Collection

Fields:

- userId
- name
- email

Child Collection

Fields:

- childId
- name

- dob
- gender
- bloodGroup

Vaccination Collection

Fields:

- vaccineName
- dueDate
- status

Reminder Collection

Fields:

- medicineName
 - reminderTime
-

8. UI/UX Requirements

Design Theme

- Primary Color: Blue (#1976D2)
- Accent Color: Green (#43A047)
- Warning Color: Red (#E53935)

Screens

- Splash Screen
- Login/Register
- Dashboard
- Child Profile
- Vaccination Tracker
- Reminder Screen
- Growth Monitoring Screen

9. Testing Criteria

Test	Expected Result
Login Test	Successful authentication
Add Child Test	Child saved in Firestore
Reminder Test	Notification triggers
Vaccination Test	Data updates correctly

10. Acceptance Criteria

Project is accepted if:

- All functional requirements implemented
 - Firebase connected successfully
 - Firestore database operational
 - Notifications working
 - App runs without crash
-

11. Sign-Off
